5. Other issues

- PI Data collection:
 - No major issues are found in the correlations between PIs and PhD students/postdocs at the department level. Next is to investigate at a division level.
 - Hanna will investigate if there is a correlation between there being female PIs in a division and the division being gender balanced.
 - We decide that what bothers us the most is the lack of female Professors (~14%), the lack of female Heads of Division (0%), the lack of females in technical service (IT, mechanical workshop 0%), and the

lack of males in administration (0%). We will push for this topic to be discussed in the upcoming Department Day.

- Next General Assembly: save the date 27 October.

6. **Next meeting:** Some time in August/September. To be called by Ariadna.

7. **Closing of the meeting:** 13h01
